

Please refrain from preempting the Indiana Telephone Privacy Law. Our quality of life has improved significantly with this protection in place. We had been bombarded with all types of unwanted calls prior to signing up for the service. Not everyone wants to pay the additional cost for caller ID, just to keep these intrusions at bay. And, even the ringing of the phone itself is an intrusion. The Indiana Telephone Privacy Law has returned our home to the lifestyle that we deserve. Please do not interfere with the existing law. All unwanted calls are an intrusion.
